ART, DESIGN & EXPERIENCE

Capella at Galaxy Macau evokes Macau's adventurous spirit and rich history, inspiring the theme of "The Gilded Jungle," which is artfully carried through the property. Curated contemporary art pieces are thoughtfully integrated throughout the hotel's meticulously designed interiors. This includes a remarkable immersive digital artwork in the Ground Floor Lobby by Laura Cheung, artist and founder of home décor and lifestyle emporium LaLa Curio; portraying the dynamic forest with living flora and fauna for a spellbinding visual experience. The living, breathing digital artwork is a dynamic reinterpretation of the traditional artisanship created by Cheung, evoking the signature hand-painted, gold-leaf accented wallcoverings found in Capella at Galaxy Macau's luxury guest accommodations.

The Lobby

An enchanting guest journey through the property, "The Gilded Jungle" is envisioned as an ascent from jungle floor to canopy. Two distinct visual chapters define the immersive multi-sensory experience. The Glade marks the beginning; featuring an interpretation of a bright jungle clearing on the ground floor of Capella at Galaxy Macau. Open and light-filled, sunlight penetrates the conceptual canopy, dappling spaces in warm, golden hues. Visual elements include a deliberate play on light and shadow in the undulating, experiential LED wall, referencing organic forms – sunbeams, grasses, fungi, tropical flora, and reflective, flowing water elements that merge into the water features present in the Lobby. Animated, playful, auspicious animals make themselves seen and occasionally heard, including the tortoise, stork, monkey, squirrel, and zebra, in Cheung's immersive, 3-dimensional digital artwork. Transitioning through the cycles of the day, Nature's chorus begins at dawn, followed by sunrise, radiating refined touches of dappled light as guests enter the Capella Lobby and experience the artwork changing throughout the day to twilight.

The Capella Living Room

Meandering up to The Canopy on the first floor, the guest experience is elevated into the treetops through a series of inviting social spaces. Here, the unique circular aspect of the Capella Living Room is brought to life with a series of 7 nature-inspired abstract works by Hong Kong-based French artist Elsa Jeandedieu. Having completed a giant mural at Capella Taipei, Jeandedieu's works convey an innate understanding of the Capella brand essence. Carefully created in her Hong Kong studio, her collection for Capella at Galaxy Macau features a warm, harmonious earth-toned palette enhanced by leafy textures and burnished shimmers of gold accenting the leaves. Meanwhile, the first-floor terrace features a striking sculptural work curated by award-winning Hong Kong designer and artist, Alan Chan. Chan's curatorial art at Capella builds on a powerful legacy at the Galaxy Integrated Resort, including his inspired commissions for Galaxy Macau's famed art deco cabaret lounge, China Rouge.

EXPERIENTIAL DINING

The dining offerings at Capella at Galaxy Macau celebrate ground-breaking collaborations with the world's leading innovators and talents dedicated to the art of gastronomy, mixology and the cultivation of connoisseurship.

Botanica

Botanica at Capella at Galaxy Macau offers a window on contemporary and approachable Continental Café culture with Executive Chef, Stephen Hsu. Journeying from the land to the horizon, guests are invited to feast on an evolving menu weaving provenance with passion.

A tropical paradise brings Nature deeper into the contemporary interiors of Capella at Galaxy Macau's dining concepts. Botanica's interior features reflect harmony and natural elements including water, plant seeds and dew, with wooden sculptures by multi-talented Mexican artist and designer Joel Escalona. Escalona's innovative organic sculptures in red oak enhance Botanica's expression of simple-yet-refined café-dining.

Pony & Plume

Inspired by the game of equestrian polo, 'Pony & Plume', the 60 seat Moinard Bétaille -designed whisky bar and divan at Capella at Galaxy Macau, features one of the world's rarest, most carefully curated collections of limited-edition whiskies, in collaboration with a differentiated selection of whisky producers, and two of the world's leading experts in whisky curation and whisky-mixology.

At Pony & Plume, this discreet haven channels the spirit of the polo field – all polished, antique brass, dark timber, and meticulous detailing. Pony & Plume's handsome interiors feature a curated humidor and considered list of over 650 of the world's rarest whiskies, handpicked by an industry-leading whisky specialist. More private club than public house, it's an essential stop for aficionados who appreciate true connoisseurship in all its forms. Listen closely, and the air hums with the syncopating rhythms of a live Latin American band.

Cementing its singular offering, fans of the artisanal wonders of Cuba and the New World can access curios – collectibles and humidors – from a distinguished private collection which includes antiques, art and objects of distinction. Cuban connoisseurship thanks to Pony & Plume's resident expert to guide aficionados in their selection, handpicked from Asia's largest purpose-built humidor.
