

IGT – Global Leader

IGT stands as a global leader in the gaming industry, renowned for its innovative solutions and cutting-edge technology. Headquartered in Las Vegas, with a dedicated team of 7,200 employees worldwide, IGT is leading the way in delivering exceptional experiences across the globe.

IGT's offering spans gaming machines, game content and systems, iGaming, sports betting, cash access, loyalty and player engagement solutions, enabling it to deliver integrated, customer-centric experiences across land-based and digital environments. Organized into Gaming, Digital and FinTech business units, IGT drives innovation, efficiency and value for casino, digital and hospitality operators worldwide.

Global Strength. Local Focus.

IGT leverages this global strength for the Asian market and delivers games and services that are locally focused and attuned, with IGT regional offices located in Macau, Singapore and Manila.

Local game development studios located in Beijing, China and Sydney, Australia create game content specifically tailored for the Asian market. In addition, the local studios leverage successful global performing games and hand select the products to be localised for Asia such as current IGT global hit, Tiger and Dragon, which was successfully showcased at G2E Asia 2025 and will be heading to venues in Asia in the near future.

IGT's local product management teams located in the Philippines and Macau develop dedicated product roadmaps tailored to different regions and jurisdictions across Asia which support both IGT's dual and portrait cabinet series.

In addition, IGT offers the IGT ADVANTAGE casino management system featuring loyalty-building solutions to attract and retain players, and the industry's only fully integrated cashless solution.

Proven Games & Performance

Facilitating more than 155 customers across Asia, IGT's local representation provides a keen understanding of the different player preferences across different region and the importance of adapting products to meet these requirements.

IGT's player-preferred linked-progressive games, like Ying Fu Wa Link, Prosperity Link, and Cash Cove Frenzy on the Peak family of cabinets, continue to return strong performance results.

In addition, latest Link additions in Money Gong, Ying Fu Wa Fa Fa Fa and IGT's number one product for 2025 in Asia, Rising Rockets, are boosting player entertainment and performance on casino floors.

With a healthy release portfolio planned for the second half of 2025 and into 2026, including global performer Tiger and Dragon, IGT is committed to growth within the Asian region.

Casino Systems Excellence via IGT ADVANTAGE

As one of the most widely deployed Casino Management Systems (CMS) in the industry, IGT ADVANTAGE System is a modular design, which allows operators to customize their deployments to meet their unique business needs.

Currently running in over 18 properties across Asia, with additional installations scheduled to be installed in the next 12 months, IGT ADVANTAGE gives operators access to detailed analytics that help them optimize their casino floors and elevate profitability.

IGT ADVANTAGE also includes many apps and features that level-up player engagement and provide a frictionless player experience. Products such as Resort Wallet and IGT Pay are enabling cashless gaming, while convenience apps such as iReserve, Tip Ticket and Beverage on Demand automate casino actions that would otherwise interrupt patron game play.

Plus communicating with players in real-time with promotional offers and reward redemption is now a reality with Intelligent Offer - delivering the latest offers and allowing for rewards to be redeemed direct on a gaming machine via Service Window or a venue's mobile app.

Driving Sustainable Play

In addition to delivering quality products and services, IGT is a gaming industry leader in global sustainability via its Sustainable Play initiatives. Sustainable Play is focused on four pillars: Valuing and Protecting Our People, Advancing Responsibility, Supporting Our Communities, and Fostering Sustainable Operations.

IGT's efforts have been recognized by prestigious ESG rating agencies such as S&P Global, EcoVadis and Moody's, and via lauded Responsible Gaming certifications from well-respected organizations such as the World Lottery Association and Global Gambling Guidance Group (G4).
